PROFILE

Master's student in Artificial Intelligence at Oxford Brookes University with a strong foundation in Computer Engineering from the University of Seville. Passionate about leveraging AI technologies, including Deep Learning, Machine Learning, and LLM fine-tuning, to drive innovation and solve complex problems. Proven experience in software engineering through internships, developing enterprise solutions with tools like Spring Boot, Angular, and Power BI. Adept at working in multilingual environments, fluent in English, French, and Spanish. Seeking a role in software engineering or AI development.

EDUCATION & QUALIFICATIONS

Oxford Brookes University

2024-present

Master's degree Artificial Intelligence

- Focus on Machine Learning, Robotics, Neural Networks, Data Science, LLMs, and advanced algorithms.
- Actively participating in Oxford Brookes Racing Autonomous as part of the Controls and Perception teams.

University of Seville

2019-2024

Bachelor's degree Computer Engineering – Information Technologies (MERIT)

- Final year project: Created a virtual assistant for a restaurant, improving customer interaction through automation.
- Skilled in software development, including web and mobile applications, database management, and network systems.
- Developed project management abilities and teamwork skills while completing diverse IT projects.

Spanish School of Rabat - Baccalaureate Science Track

2003-2018

- Science track specializing in Biology, Chemistry, and Mathematics.

WORK EXPERIENCE

Intern Software Engineer | Sopra Steria

Sep 2023 - Mar 2024

Global IT consultancy providing software solutions and services to international clients across various industries.

- Developed software solutions for international clients using Spring Boot, Angular, SQL, and Power BI.
- Successfully delivered a project for an international client within the given timeline, improving internal workflows and client satisfaction.
- Gained experience working in a bilingual environment (Spanish and French).

Part-Time Waiter | Old School Pizzeria

Jun 2022 - Sep 2022

Restaurant in Seville specializing pizzas, tapas, and beverages.

- Served food and beverages to customers and manager customer orders.

ADDITIONAL INFORMATION

Languages – Arabic; English; French; Spanish

Technical skills

- Programming Languages: Python, C++, Java, JavaScript, SQL, Dart, PHP
- Artificial Intelligence & Machine Learning: TensorFlow, Keras, PyTorch, Scikit-learn, Natural Language Processing (NLP), Computer Vision
- Databases: MySQL, PostgreSQL, MongoDB, SQLite, Firebase
- Web Development: ReactJS, Node.js, Express.js, HTML, CSS, Bootstrap, Django, Flask
- Mobile Development: Flutter
- Frameworks & Tools: Spring Boot, Spring Security, Angular, Git, Docker.
- Version Control: Git, GitHub, GitLab
- Data Science & Visualization: Pandas, NumPy, Matplotlib, Power BI
- Operating Systems: Windows, Linux, macOS

INTERESTS

I enjoy playing and following sports. Traveling is also one of my passions. Additionally, I have a strong interest in technology and have developed websites for individuals. I am always eager to learn new things and interact with people from diverse backgrounds.
